- Contact Information

MEPS Components

Medical Expenditure Panel Survey (MEPS)

Household
Component
(HC)

Medical Provider
Component
(MPC)

Insurance
Component
(IC)

MEPS Components

- ❑ **MEPS-HC: Household Component**
 - ❑ Collects healthcare use data from a sample of families and individuals across the United States
 - ❑ Annual survey since 1996

- ❑ **MEPS-MPC: Medical Provider Component**
 - ❑ Survey of medical providers linked to respondents to the HC
 - ❑ Collects data from a sample of providers who provided medical care to HC respondents
 - ❑ Data not designed to yield national estimates; used solely for editing and imputation purposes related to the Household Component data

- ❑ **MEPS-IC: Insurance Component**
 - ❑ Collects data from a sample of private- and public-sector employers on the health insurance plans they offer their employees
 - ❑ An independent survey of employers and unions NOT linked to HC

MEPS-HC: Purpose & Use

- ❑ **MEPS-HC is an annual survey of about 15,000 households fielded since 1996**
- ❑ **The sample is representative of the civilian noninstitutionalized population of the United States**
- ❑ **The sample is drawn from previous year's National Health Interview Survey (NHIS) sample.**
- ❑ **Collects data from a sample of families and individuals across the United States**
- ❑ **Provides nationally representative estimates of healthcare use, expenditures, sources of payment, access to care, and health insurance coverage**
- ❑ **Allows estimates to be produced for individuals, families, and selected population subgroups and socioeconomic characteristics**
- ❑ **Is used for policy-related and behavioral research on the determinants of healthcare use, spending, and insurance coverage**

MEPS-HC: Commonly Used Terms

- ❑ **Panel** - Since 1996, every year a new panel of sample households has been selected. Each Panel participates in MEPS for two years, e.g., 1/1/2023 – 12/31/2024
- ❑ **Round** - There are five interview rounds to collect two years of healthcare usage data
- ❑ **CAPI** - Computer assisted personal interviewing
- ❑ **CAVI** - Computer assisted video interviewing
- ❑ **Respondent** – All data for a sampled household are reported by a single household respondent

MEPS-HC: Sample Sizes

Year	Number of families	Number of persons
2021	13,238	27,332
2020	12,290	26,847
2019	11,924	27,648
2018	12,475	29,415
2017	12,756	30,716
2016	13,587	33,259
2015	13,800	33,893
2014	13,421	33,162
2013	13,936	35,068
2012	14,763	37,182
2011	13,449	33,622
2010	12,445	31,228
2009	13,875	34,920
2008	12,316	31,262
2007	11,615	29,370
2006	12,811	32,577
2005	12,810	32,320
2004	13,018	32,737
2003	12,860	32,681
2002	14,828	37,418
2001	12,852	32,122
2000	9,515	23,839
1999	9,345	23,565
1998	9,023	22,953
1997	13,087	32,636
1996	8,655	21,571

MEPS-HC: Data Collection Process

- ❑ There are five interview rounds to collect two years of healthcare usage data, and the survey builds on this information from interview to interview
- ❑ MEPS interviews are conducted in person, on phone and on video.
- ❑ MEPS has two cycles of data collection each year; the first in the Spring from January through June for odd numbered rounds and the second in the Fall, from July through December for even numbered rounds
- ❑ In the first six months of each year, data collection is in progress for three panels: the panel beginning its first year, the panel beginning its second year, and the panel completing its final interview
- ❑ With this design, MEPS produces a continuing series of annual data files on health care use and expenditures
- ❑ Each annual data file contains data from two panels, and each panel is represented in two annual files

MEPS-HC: Questionnaires

- ❑ **MEPS Interviews consists of many questionnaires**
- ❑ **Collection schedule:**
 - **Once a year**
 - **Every Round**
 - **Every Round except last**
 - **Only in the Last round**
- ❑ **Modes of collection:**
 - **Interviewer Asked**
 - **Self-Administered Questionnaires**

MEPS-HC: Questionnaires

□ Questionnaires asked by the Interviewer:

- **Demographics**
- **Utilization and Expenditures**
- **Charges and Payments**
- **Employment**
- **Health Insurance**
- **Access to Care**
- **Child Health and Preventive Care**
- **Income**
- **Additional Health Questions**
- **Assets**

MEPS-HC: Questionnaires

❑ Demographics

- Collects age, sex, race and ethnicity, Language and English proficiency, marital status, foreign-born status, student status and educational attainment, military service and honorable discharge and poverty status

❑ Utilization and Expenditures

- Collects use and expenditures for office- and hospital-based care, home healthcare, dental services, vision aids, and prescribed medicines.

MEPS-HC: Questionnaires

☐ Charges and Payments

- Tracks total charges and sources of payment for medical events reported in earlier sections

☐ Employment

- Covers questions about each person's employment or self-employment status

☐ Health Insurance

- Collects information about health insurance for individuals

MEPS-HC: Questionnaires

❑ Health Status

- Asks questions about IADL (Instrumental Activities of Daily Living) and ADL (Activities of Daily Living) limitations, Functional and activity limitations, Hearing, vision problems and Disability status etc.

❑ Priority Conditions Enumeration

- Assessment of each person's perceived physical and mental health and collects information about a select group of highly prevalent conditions, called priority conditions

MEPS-HC: Questionnaires

❑ Access to Care (AC)

- Identifies whether each household member has a medical provider who serves as the usual source of care (USC), reasons why members without a USC do not have a USC, Questions about satisfaction with USC provide, and any problems experienced in obtaining needed healthcare

❑ Child Preventive Health (CS)

- Collects information on general health status, special healthcare needs, potential behavioral problems, access to healthcare, preventive care, and height and weight of any child in the family

MEPS-HC: Questionnaires

☐ Income

- Collects information about income and tax returns

☐ Additional Health Questions

- assess the impact of physical illness, injury, or mental/emotional health on household members' attendance at work. The section also asks about smoking and engaging in vigorous exercise

☐ Assets

- ask about household members' real estate, businesses, vehicles, investments, other assets, and debts to supplement the financial data collected in the Income section

MEPS-HC: Self-Administered Questionnaires

- ❑ **Diabetes Care Survey (DCS) – Once a year**
- ❑ **Adult Self-Administered Questionnaire (SAQ) – Every other year, R2/4**
- ❑ **The Preventive Care Self-Administered Questionnaire (PSAQ) – Every other year 2/4**
- ❑ **Social Determinants of Health Survey (SDOH) – Data in FY2021**
- ❑ **Veteran Self-Administered Questionnaire (VSAQ)- Data in 2018/2019**
- ❑ **Cancer Self-Administered Questionnaire (CSAQ) – Data in 2011/2016/2017**

MEPS-HC: 2018 Changes

- ☐ Omitted sections
- ☐ Added sections
- ☐ Modified sections
- ☐ SAQs
- ☐ Changes to use and expenditure collection
- ☐ Research implications

- ☐ Condition Enumeration (CE)
- ☐ Disability Days (DD)
- ☐ Preventive Care (AP)
- ☐ Provider Directory (PD)

MEPS-HC: 2018 Changes

 - ☐ Event Detail

MEPS-HC: 2018 Changes

- ☐ Omitted sections
- ☐ Added sections
- ☐ Modified sections
- ☐ SAQs
- ☐ Changes to use and expenditure collection
- ☐ Research implications

- ☐ Variable changes
- ☐ Variables renamed
- ☐ Other implications

MEPS-HC: COVID-19 Changes

- ❑ **No interruption in data collection throughout pandemic**
- ❑ **Spring 2020: Shift to telephone interview**
 - **Inclusion of telehealth: informal prompting of telemedicine events**
- ❑ **Fall 2020:**
 - **COVID added to Condition Roster (3 entries)**
 - **COVID-19 in-person mitigation protocols**
 - **Generalized CAPI instrument to accommodate 9 data collection rounds**
- ❑ **Spring 2021:**
 - **Telehealth questions added to provider probes**
 - **Inclusion of Telehealth event type**
 - **Added items related to 'Delays in care due to COVID'**

MEPS-HC: COVID-19 Changes

❑ **Fall 2021:**

- **Added COVID-19 vaccine item**
- **Gradual shift to Face-to-face interviewing**

❑ **Spring 2022:**

- **Face-to-face interviewing – as much as possible (varied geographically dependent on COVID-19 activity)**
- **Added COVID-19 vaccine booster item**
- **Roll out of Computerized Assisted Video Interview CAVI**
- **MEPS data collection is now multi-mode (in-person, CAVI and phone)**

❑ **Spring 2023:**

- **Addition of COVID-19 questions to measure LONG COVID**

MEPS-HC: COVID-19 Changes

Temporary Changes in Sample Design and Data collection

-  **Panel 23 and 24 - extended to nine rounds**
-  **Translates into a respondent participating in MEPS for four years**
-  **Panel 25 onwards – back to five rounds**

MEPS-HC Changes: Research Implications

- ❑ All design changes will impact trend analysis and longitudinal research projects
- ❑ Many variables have been eliminated, added, or modified.
- ❑ Some variable labels have been changed, even though variable names are the same. Some answer categories changed or collapsed
- ❑ The value -9 NOT ASCERTAINED was removed as an allowable value and replaced with -15 CANNOT BE COMPUTED
- ❑ Due to COVID-19, temporary changes in the sample design and data collection
- ❑ **Read the Documentation carefully before starting your analysis!**

MEPS-HC: Dissemination

<https://meps.ahrq.gov/mepsweb>

- **Data Files**
- **Data Tools**
- **Questionnaires**
- **Publications**
- **Workshops and events—workshops, webinars, and seminars**
- **Mailing list**

MEPS-HC: Data Files (PUFs)

❑ Full-Year Files

- Contain expenditure and utilization data for the calendar year from several rounds of data collection

❑ Types of Files

- Person Level—Detailed person information
 - Each record represents a person and has all the person's demographics, health, income, expenses, etc.
- Event Level—Detailed event information
 - Each record represents an event, such as a hospital visit, and has all details on conditions, expenditures, etc., for that visit
- Condition Level—Detailed condition information
 - Each record represents a condition; all details on that condition are on that record
- Job Level—Detailed job information
 - Each record represents a job and all details associated with it

MEPS-HC Data Files: Supporting Documents

☐ Documentation files

- Contain general information about MEPS
- List and discuss file variables including variable-source crosswalk to link back to questionnaire items
- Include instructions on how to link files

☐ File codebooks

- Contain names and location of all variables
- Provide formatted frequencies for all variables in the file

☐ Programming statements

- SAS, SPSS, STATA, R (2017 onwards)

☐ Data File in following formats

- ASCII, SAS transport, Stata, SAS V9 and XLXS (2018 onwards)

☐ Industry and Occupation Codes

MEPS-HC: Data Tools

<https://datatools.ahrq.gov/meps-hc>

- ❑ Explore trends and cross-sectional bar charts for nationally representative estimates of household medical utilization and expenditures
- ❑ Customize by demographic characteristics, health insurance coverage, accessibility and quality of care, treated medical conditions, and prescribed medicine purchases
- ❑ Customize by number of people, total expenditures, prescription medicines or dental visits, source of payment (e.g., Medicare, Medicaid, Out of Pocket)
- ❑ MEPS-HC Variable Explorer Tool : Quick and easy way to find variables and files for research purposes.

Medical Coverage and Expenditures

The **Medical Expenditure Panel Survey (MEPS)** explores health insurance coverage, access to care, quality of care, healthcare use, and expenditures.

Healthcare | MEPS-HC

Household Component

For the U.S. civilian population

- Healthcare use and spending
- Health insurance coverage
- Access to care, diabetes care, and quality
- Treated medical conditions
- Prescribed drugs

Health Insurance | MEPS-IC

Insurance Component

National and state-level employer-based health insurance:

- Employer characteristics/offers
- Employee take-up
- Premiums
- Contributions
- Cost-sharing

Explore the MEPS-HC Data Tools

The MEPS Household Component collects data on all members of sample households from selected communities across the United States. These data can be used to produce nationally representative estimates of medical conditions, health status, use of medical care services, charges and payments, access to care, experience with care, health insurance coverage, income, and employment.

The summary tables provide frequently used summary estimates for the U.S. civilian non-institutionalized population.

This tool is provided as a convenience. It is the responsibility of the user to review the results for statistical significance and overall reasonableness.

Use, Expenditures, and Population

Utilization, spending, and population totals by demographic attributes, event type, or source of payment.

Health Insurance

Number and percentage of people by insurance coverage and demographic attributes.

Accessibility and Quality of Care

Information on access to care, preventive care, diabetes care, and patient-reported quality of doctor's visits.

Medical Conditions

Utilization, spending, and number of people with care for medical conditions by demographic attributes.

Prescribed Drugs

Purchases and spending by prescribed drug or therapeutic class.

Use, Expenditures, and Population

- ☐ **Annual/Main Public Use Files (PUFS)** - Full-Year Consolidated files (FYC), FYC supplemental variables, Conditions, Jobs files, Person Round Plan, Point-in-Time files, and Event type files including the Multum Lexicon addendum files, RX-event linkage, and condition-event linkage files
- ☐ **Balanced Repeated Replicates (BRR)** - Contains 128 half-sample indicators needed to calculate standard errors using the balanced repeated replication (BRR) method
- ☐ **Employment Variables (2000-2013)** - Supplemental release of fully-imputed versions of selected employment variables
- ☐ **Food Security Files (2016-2017, 2020-2021)** - Data pertaining to food security
- ☐ **Longitudinal Data Files** - A two-year longitudinal file representing each Panel in the MEPS survey
- ☐ **Medical Organization Survey (2015-2016)** - Characteristics for usual source of care providers
- ☐ **Pooled Linkage Variance Structure** - Standardized variance strata and PSU variables for a pooled analysis.
- ☐ **Preventive Care SAQ (2014)** - Contains various person-level preventive health care data for adults

MEPS-HC: Confidential Data

- ❑ **Non-Public MEPS-HC Data**
 - **Has confidential information**
 - **Only available from Data Centers**
- ❑ **Non-public MEPS-HC data can be accessed through many data centers around the country**
 - **AHRQ Data Center (ADC)**
 - **Federal Statistical Research Data Centers (FSRDC)**
 - **University Data Centers**
- ❑ **Type of data that can be accessed:**
 - ***State and County FIPS Codes***
 - ***Fully Specified ICD-9/10 Codes***
 - ***Date of cancer diagnosis, etc.***

AHRQ Data Center (ADC): Procedures

☐ Location

- Located in Rockville, MD at AHRQ building
- Secure room with no internet connectivity; terminal connected to secure LAN
- Users escorted while in the building

☐ Statistical Software

- SAS, Stata, SUDAAN, R

☐ Programming Support

ADC: Procedures

- ☐ **Proposal and review—two weeks for feasibility and data availability**
- ☐ **Institutional review board (IRB) review from users' institute**
- ☐ **Sign the data use agreement**
- ☐ **Fee - \$300 one-time to cover technical assistance**
- ☐ **Researcher may bring data in, but not out**
- ☐ **Given access only to data needed for approved project**
- ☐ **Analysis must be run onsite**
- ☐ **Some data available via the MEPS-AWS SecureCloud**
- ☐ **Tabular data reviewed for confidentiality before release**
- ☐ **ADC will store data files and outputs needed for future replication**
- ☐ **If using other data centers, users need to follow rules and pay fees as required by that data center in addition to ADC**
