Changes Made to Health Insurance Data in 2018

1. Changes made to increase the reporting of coverage

1-1. Verification module was added

Those not reporting any hospital/physician coverage were asked (1) whether they had coverage; and if so, (2) type of coverage. Variable added to indicate round # first reported:

→ VERFLGrr

1-2. Respondents were allowed to report both Medicaid and other public hospital/physician coverage:

→ GOVTArr, GOVTBrr, GOVTCrr

Changes Made to Health Insurance Data in 2018

1-3. Previously the following types of coverage were asked at the responding unit (RU) level (e.g. “Has anyone in the family been covered by ...?” “Who has been covered by ...?”)

- Medicaid/SCHIP, military coverage, or Medicare (\geq 65 years old) when first asked
- Medicaid/SCHIP, military coverage, other public, or private coverage when reviewed

Now these coverage questions are asked at the person level (e.g. “Was Person 1 covered by ...?”)

2. Additional information collected

- 2-1. Coverage through Indian Health Service (IHS) (→ IHSrr)
- 2-2. Veteran's Administration (VA) as a type of military health insurance coverage. (→ VAPROGr)
- 2-3. A variable indicating that a person is covered under a policyholder living outside the RU (PROUTrr) is replaced by two variables that distinguish whether the policyholder's coverage source is through an employer (PRIEUOr) or not through an employer (PRINEOr).
- 2-4. The question asking the amount contributed to the FSA is asked at the person-level (PFSAMT31). Previously, the question was asked at the RU level and collected the total amount within an RU.

3. Information no longer collected or not reported

3-1. The response category “High Risk Pool” was removed from HP40, HX200, and HX300.

3-2. Variables that indicate insurance reported through a self-employed job with firm size 1 (PRISrr) are no longer included. This coverage is now included in the other private insurance variables.

3-3. A question about state-specific program participation in non-comprehensive coverage is no longer asked (STAPRrr).

2018 Person Round Plan Public Use File (PRPL)

- **Reflects complex and dynamic relationships between people and their private insurance.**
- **Contains records for persons with private:**
 - ▶ Hospital/physician coverage
 - ▶ Medigap
 - ▶ Dental, vision, or prescription medication coverage
- **Contains variables pertaining to managed care.**
- **Out-of-pocket premiums**
